Goal Keeping/Strategic Planning

This course is for business owners who are looking for a system for achieving business success. The course can also be used to achieve personal goals.

Some topics covered include: *Setting meaningful goals, designing a business plan, increasing your net income, etc.*

Starting a Successful Business: Stuff You Need to Know

At the end of the course students will have learned the strategies they need to know to avoid the most common mistakes people make when starting a business.

Some topics covered include: *Things to do before you start a business, avoiding jail and other legal stuff, getting enough money, etc.*

Every Canadian's Guide to Financial Prosperity

This course will help you understand the financial choices and options at each stage of your life. After completing this course you will have enough information to have an intelligent discussion with your financial advisor, accountant, lawyer, or broker.

Some topics covered include: *Smartest use of debt, planning for retirement and budgeting.*

Understanding Financial Statements For Board Members

This course will provide – in an easy to understand manner – the basic knowledge to make a director comfortable at the boardroom table when the financial statements and budgets are handed out.

Some topics covered include: *Reviewing an operating budget, types of internal control, ten steps used to review financial statements, etc.*

Basic Governance For Board Members

This course is for people who serve (or are considering serving) on a board as a director or board member. The focus of this course is make sure you stay out of trouble by knowing your rights, obligations and duties as a board member.

Some topics covered include: *What is governance?, Directors' rights, what could go wrong, etc.*

COURSE CUSTOMIZATION

We Can Customize Any of Our Online Courses to Your Specific Needs

Consider the benefits of a financial literacy course customized to use your internal accounting reports, your budgets and your financial statements.

Give your employees the specific training they need to understand the financial concepts relevant to their roles.
